GLASSDOOR.COM

Glassdoor is one of the fastest-growing jobs and recruiting sites. Glassdoor holds a growing database of millions of company reviews, CEO approval ratings, salary reports, interview reviews and questions, benefits reviews, office photos and more.

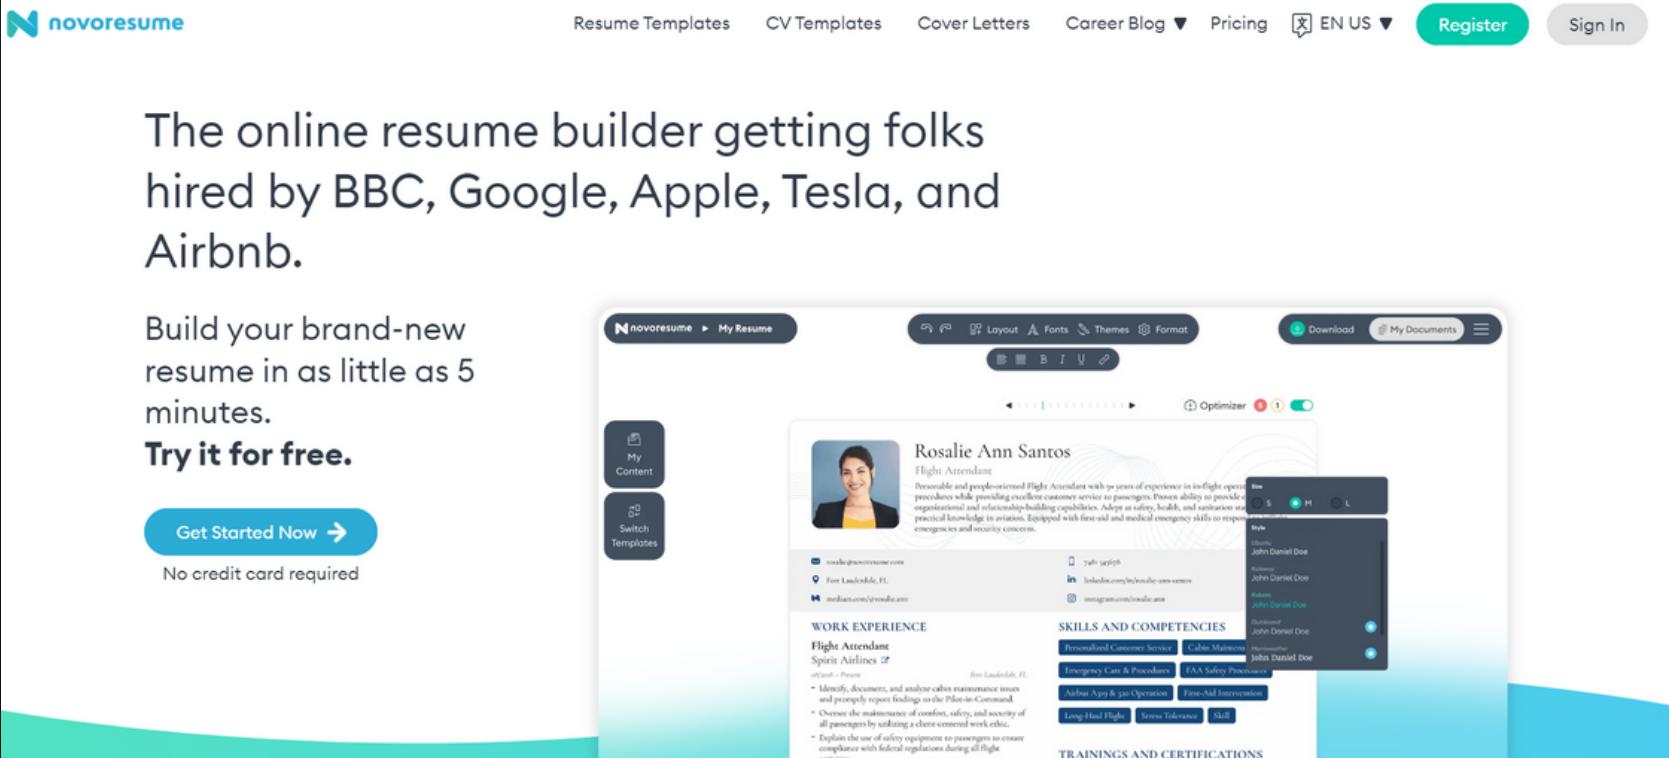

The screenshot shows a company profile page on Glassdoor. At the top, there's a navigation bar with a building icon, the company name 'Company Name', and several metrics: 4.5k Reviews, 15k Salaries, 6.6k Interviews (which is highlighted in blue), 973 Jobs, and 1.7k Benefits. There are also 'Follow' and 'Control' buttons. Below this, the 'Interviews' section is displayed with a heading 'Software Developer Interview'. Underneath, there are three colored squares with text: a green square for 'Accepted Offer', another green square for 'Positive Experience', and a yellow square for 'Average Interview'. Further down, there are sections for 'Application' and 'Interview', each with a series of horizontal lines representing different reviews or steps.

NOVORESUME.COM

A good website for creating quick and tidy resume.

Recommended if you believe in creating something quite standard and less risky. And because it has quite similar format that people use today, everything will depend only on the selection of words used in it to get some brownie points.

The screenshot shows the Novoresume website homepage and a preview of a resume being built. The top navigation bar includes links for Resume Templates, CV Templates, Cover Letters, Career Blog, Pricing, EN US, Register, and Sign In. The main headline reads: "The online resume builder getting folks hired by BBC, Google, Apple, Tesla, and Airbnb." Below this, a call-to-action says: "Build your brand-new resume in as little as 5 minutes. Try it for free." A "Get Started Now" button is present, along with a note: "No credit card required". On the right, a preview window shows a resume for "Rosalie Ann Santos" as a Flight Attendant. The resume includes sections for WORK EXPERIENCE, SKILLS AND COMPETENCIES, and TRAININGS AND CERTIFICATIONS. It lists her current position at Spirit Airlines, FL, and previous roles at Frontier Airlines and American Eagle. Her skills include Personalized Customer Service, Cabin Maintenance, Emergency Care & Procedures, FAA Safety Procedural, Airbus A320 & 330 Operation, First Aid Intervention, Long-Haul Flight, Stress Tolerance, and Public. Contact information provided includes rosalie@novoresume.com, Fort Lauderdale, FL, and medium.com/@rosiesantos. Social media links for LinkedIn, Facebook, and Instagram are also listed.

CODEBEAUTIFY.ORG

Make your source code more beautiful and easy to read using code to beautify its AI technology will make your source code more attractive and easy to read.

The screenshot shows the homepage of Code Beautify. At the top, there's a navigation bar with links for JSON Formatter, XML Formatter, SEO Inspector, Calculators, JSON Beautifier, Recent Links, Sitemap, Favs, and Login. Below the navigation is a search bar with the placeholder "Search CodeBeautify tools" and a magnifying glass icon. A "Chrome Extension" button is also visible. The main title "Code Beautify" is centered above a subtitle "Code Formatter, JSON Beautifier, XML Viewer, Hex Converters and more...". Below the subtitle is a grid of 15 buttons representing various tools: JSON Beautifier, HTML Viewer, Number to Words, SQL Formatter, Image to Base64, Base64 to Image, HEX to Pantone, Source Code Viewer, Binary to Text, JSON Viewer, JSON Validator, Base64 Decode, Hex to Decimal, XML Viewer, and XML to JSON.

DEVDOCS.IO

DevDocs brings together numerous API documentation in a single, searchable interface. You will find docs related to various programming languages and technologies in one place.

The screenshot shows the DevDocs.io interface. On the left, there's a sidebar with a search bar at the top. Below it is a list of disabled documentation entries, each with a small icon and a link. The main content area on the right has a green header "Welcome!" and a "Stop showing this message" button. It contains a brief introduction and a numbered list of 9 tips. At the bottom of the main area, there's a "Happy coding!" message.

Search... :

- Bower 1.8.4

Welcome! Stop showing this message

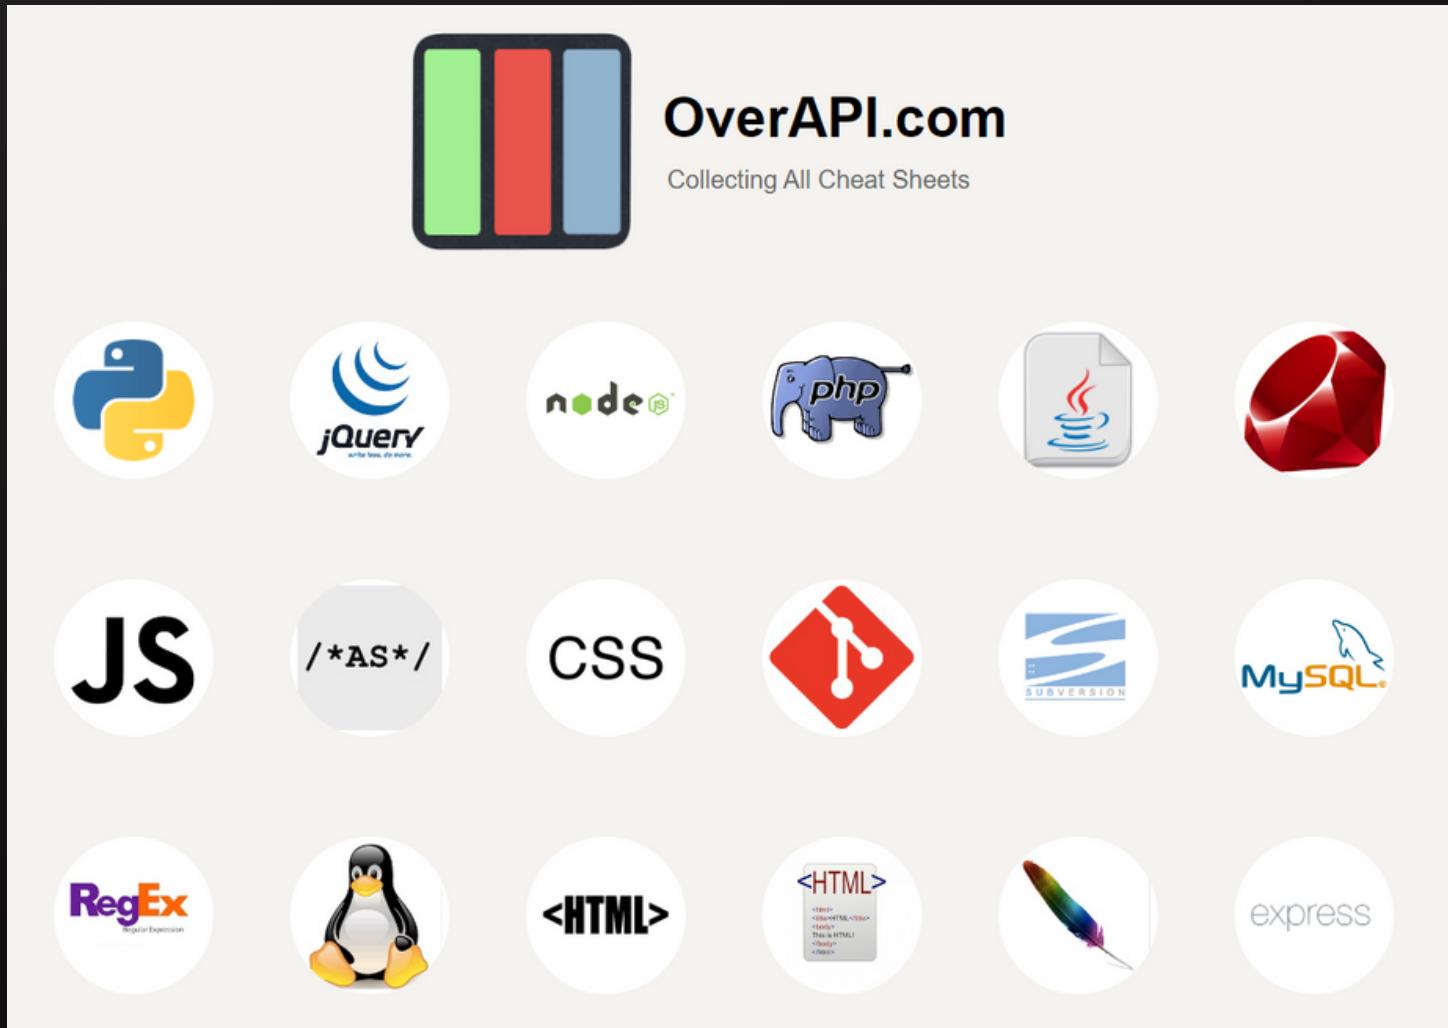

DevDocs combines multiple API documentations in a fast, organized, and searchable interface. Here's what you should know before you start:

1. Open the [Preferences](#) to enable more docs and customize the UI.
2. You don't have to use your mouse — see the list of [keyboard shortcuts](#).
3. The search supports fuzzy matching (e.g. "bgcp" brings up "background-clip").
4. To search a specific documentation, type its name (or an abbr.), then Tab.
5. You can search using your browser's address bar — [learn how](#).
6. DevDocs works [offline](#), on mobile, and can be installed as web app.
7. For the latest news, follow [@DevDocs](#).
8. DevDocs is free and [open source](#). Stars 30k
9. And if you're new to coding, check out [freeCodeCamp's open source curriculum](#).

Happy coding!

OVERAPI.COM

For all developers, OverAPI is one of the most beautiful and useful websites. This website has cheat sheets for the majority of programming languages. Take a look at it right now.
